

## 4<sup>th</sup> December 2018 – Filming in Hessel of Countryfile

19:25

Farming and Suffolk go hand-in-hand and for Katie Mitcham the two are in her blood.

Growing up on the family farm, Katie always had a love of animals and sourcing quality meat.

After travelling the world as a professional chef, Katie felt her roots pulling her back and joined forces with neighbour Mike Phillips in a traditional farming venture.

Today, that traditional farming means moving the sheep to pastures new under their own steam - and Margherita is on hand to offer her shepherding skills.
